The Organization is dedicated to spreading the Gospel of Jesus Christ through church ministry and missionary activity in the Third World. NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles. Net assets and revenues are classified based on the existence or absence of donor-imposed restrictions. In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2016-14 dated August 2016, the Organization uses the following classifications to distinguish among restrictions:

Net assets without donor restrictions – Contributions and all other revenue sources that are not subject to donor imposed stipulations. Net Assets without donor restrictions include both undesignated and board designated funds. Undesignated net assets may be used at the discretion of management to support the mission of the Organization and consist of net assets accumulated from the results of operations. From time to time, the Board may designate net assets without donor restrictions for specific operational purposes.

Net assets with donor restrictions – Net assets subject to stipulations imposed by donors or grantors. Some restrictions are temporary in nature; those restrictions will be met by actions of the Organization and/or the passage of time. Other restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Organization considers all demand deposits, money market funds, and securities with original maturities of three months or less to be cash equivalents.

Investments

Certificates of deposit, with a 12 month or less maturity, totaling \$300,000 are included in investments. The certificates bear interest at .010% with penalties for early withdrawal. Any penalties for early withdrawal would not have a material effect on the financial statements.

Fair Value of Financial Instruments

Generally accepted accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques that measure fair market value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I measurements).

The carrying value for cash and cash equivalents and the certificates of deposit approximated fair value and are considered Level I measurements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Concentrations of Credit and Market Risk

Financial instruments that potentially expose the Organization to concentrations of credit and market risk consist primarily of cash equivalents and investments (certificates of deposit). Both are maintained at high quality financial institutions which provide \$250,000 of insurance by the Federal Deposit Insurance Corporation (FDIC) per depositor at each financial institution. At December 31, 2019, the Organization had deposits at a financial institutions of \$406,043 in excess of FDIC insurance coverage.

Property and Equipment

Property and equipment used in the United States operations are capitalized at cost. Property and equipment used in the field is expensed. Donated assets to be used in the ministry are recorded at their fair market value on the date of the gift. Gain or loss from retirement or disposal of assets is reflected in the statement of unrestricted revenues and expense in the period in which the transaction occurs. Property and equipment are depreciated using a straight-line method.

Revenues, Support and Expenses

Contribution income mainly from churches and individuals is recorded when cash is received or when ownership of donated assets is transferred. Expenses are recorded when incurred or when funds are ready to be transferred to the foreign field.

The Organization reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

The Organization allocates a predetermined percentage of certain donations received to administrative fee income and other unrestricted income accounts. This allocation is to reimburse for the overhead to ministry support functions.

Functional Expenses

The cost of providing the various programs and supporting activities of the Organization have been summarized on a functional basis in the statement of activities and detailed in the statement of functional expenses. Certain costs which do not relate directly to a particular activity have been allocated among program services, management and general services, and fund-raising activities.

Donated Materials and Services

The Organization reports gifts of land, buildings, and equipment as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long-lived assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Donated Materials and Services (Cont.)

No amounts have been reflected in the statements for donated services, since no objective basis is available to measure the value of such services. However, a substantial number of volunteers from U.S. Sister Churches have donated significant amounts of their time in the Organization's program services. Donated containers of food have been recorded at fair market value and expensed when received; this amount is estimated to be an amount of \$381,024 in 2019.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimated.

Income Taxes

The Organization is exempt from income tax under Section 501(c) (3) of the Internal Revenue Code. In addition, the Organization has been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions as provided in Section 170(b)(1)(A)(vi). Accordingly, no provision is required to be made for income taxes in the financial statements. There was no unrelated business income for the year ended December 31, 2019.

The Organization has filed for and received income tax exemptions in the jurisdictions where it is required to do so. Accordingly, the Organization has filed Internal Revenue Service Form 990, *Return of Organization Exempt from Income Tax*, as required.

GAAP requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Organization's tax return to determine whether the tax positions are more likely than not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more likely than not threshold would be recorded as a tax benefit or expense in the current year. A reconciliation is not provided herein, as the beginning and ending amounts of unrecognized benefits are zero, with no interim additions, reductions, or settlements. The Organization is relying on its tax-exempt status and its adherence to all applicable laws and regulations to preserve that status. However, the conclusions regarding accounting for uncertainty in income taxes will be subject to review and may be adjusted at a later date based on factors including, but not limited to, ongoing analysis of tax laws, regulations, and interpretations thereof.

The Organization's informational returns filed with IRS are generally subject to examination for three years after the later of the due date or date of filing. However, the Organization is not currently under audit nor has the Organization been contacted by any of the taxing authorities.
